

Day 36 coding Statement : Write a Program to Capitalize the first and last letter of each word of a string

Description: Get a string from the user and then change the first and last letter to uppercase.

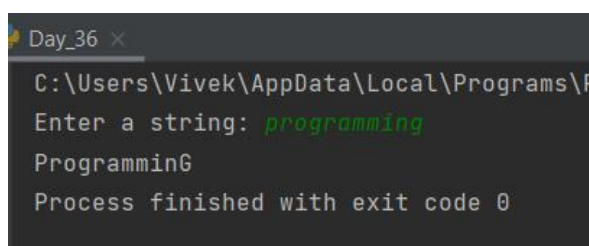

Input: programming

Output: ProgramminG

CODE:

```
str1 = input("Enter a string: ")
str2 = str1.capitalize()
last_letter = str2[-1].upper()
str3 = ""
for i in range(len(str2)-1):
    str3 += str2[i]
print(str3+last_letter, end="")
```

OUTPUT:

A screenshot of a terminal window titled "Day_36". The window shows the execution of a Python program. The first line is the file path "C:\Users\Vivek\AppData\Local\Programs\F". The second line is the prompt "Enter a string:" followed by the user input "programming" in green. The third line is the output "ProgramminG". The fourth line is the message "Process finished with exit code 0".

```
Day_36 x
C:\Users\Vivek\AppData\Local\Programs\F
Enter a string: programming
ProgramminG
Process finished with exit code 0
```
